

Geller Cash Registers

SX-585 Pro

An ECR from the SX Professional Series

Loaded with desirable features at a surprisingly affordable price, SX-585 Pro is the professional choice for modern retailers

Uniquely, the award-winning SX Range has many features normally found only on much more expensive models

- Option of integrated Chip and PIN
- Front and rear alphanumeric displays with scrolling sales messages
- Flat keyboard models have 173 buttons (any function in any position)
- New features can be retrospectively installed future proofing your investment
- Connection directly or via the Internet to Sales & Management Software
- The SX Range and back office software were designed and developed in the UK specifically for the UK market
- Approved scale link
- Heavy-duty metal drop and load clam shell printer
- Heavy-duty cash drawer with metal note clips (can be under-counter mounted)
- Clever cable management ensures no unsightly wires on view.

Features

Vivid Displays

The 10 digit alphanumeric front and rear displays describe items by name and give user friendly prompts to staff to ease and speed service.

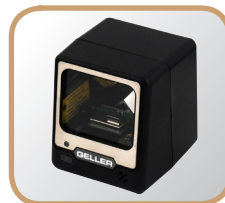

Your credit card customers are served efficiently

SX-585 Pro is available with integrated chip and PIN providing fast, accurate sales and avoiding time consuming end of day reconciliation work.

Low Cost Scanning

SX-585 can be supplied with a pre-loaded general retailing file containing 17,000+ popular products. A wide range of competitively priced scanners is available.

An easy-to-use stand-alone cash register or an entry-level EPOS system

SX-585 Pro can grow with your business

SX-585 Pro is priced to be used as a simple, stand-alone cash register. But SX-585 Pro is powerful enough to be used as an entry-level EPOS system with scanning for 20,000 price look ups and connection to back office/head office sales and management software in-house or via Internet.

Good-looking and functional

The textured wipe-clean, semi-matt finish is attractive, durable and does not show finger marks.

Displays

The 10 digit alphanumeric front and rear displays describe items by name and give user-friendly prompts to staff to ease and speed service.

Drop and Load Silent Printer

The hi-tech 'drop and load' 16-character printer mechanism, with separate 58 mm thermal receipt and audit rolls, simplifies and speeds paper roll changes and eliminates paper jams. There is no ribbon to replace or fade, so receipts of the same exceptional clarity are produced every time.

Raised Keyboard or Flat Keyboard

Model SX-595 Pro has the same specification as Model SX-585 Pro but has a spill-resistant, 173 position flat keyboard. Retailers who do not use David Professional Software to make price and product name changes via a PC, often prefer the flat keyboard. They use it like a typewriter to enter product names using the extra buttons available on the flat keyboard.

Low cost Scanning

Model SX-585 Pro's memory can hold up to 20,000 sales items as price look ups. You can enter sales manually on the keyboard by registering the Price Look Up number. Or, you can scan bar coded items for high-speed sales. A range of low cost scanners is available for the SX-585 Pro. On request, your dealer can supply you with a pre-loaded general retailing file containing 17,000+ popular products.

Bar Code Learning

If you come across an unprogrammed item - even in the middle of a sale - 'Price' displays on the screen. After you enter the price and press the department, subsequent sales of the item will scan in the normal way, showing the price and department name. Bar code names and prices can also be entered by PC.

Powerful Management Reporting

A wide choice of clear, concise Management reports provides the information you need to control your business. A series of pre-selected Reports can be programmed to print at the touch of a button.

Some of the many important features:

- Soft keyboard (any function in any position)
- Easy price and name change
- Fast tendering keys (£5, £10, £20, £50)
- Server Interrupt (several staff can use the SX-585 Pro at the same time avoiding queue build-up)
- Up to 4 scrolling messages can display promotions or information to your customers between sales.
- Stand alone scanning for up to 20,000 items with simple price and product maintenance and bar code learning feature
- Price Check Feature
- Compulsory Server ID (up to 40 Servers)
- Space saving design with option of remote cash drawer
- Training Mode for new staff
- Two RS-232 communication ports at the rear for programming the SX-585 Pro by PC and/or linking to bar code scanner
- Cash lift alarm warns when money in drawer reaches a pre-programmed amount
- Drawer open alarm
- Age verification feature
- Password protection for X and Z reports
- Management control for security sensitive operations.
